Remarks														
The Ridgeway outside Mill Hill School is already at 20mph														
A5 is low priority due to:														
cross borough works except for West Hendon ward - need liaise with Brent / Harrow														
segmented bus lanes in place - not zero cycling infrastructure														
West Hendon Broadway section newly upgraded - supposedly already 'catered' cyclists, hard to ask for improvements right away														
new signalized Xing at Stanley Rd / Park Rd already have signals for cyclists - part of Barnet Loop														
need use overpass across Staples Corner, not the signalized roundabout														
new sig junc Claremont Rd / Tilling Rd w/ ASL for cyclists														
sig junc Station Rd / A5 w/ ASL for cyclists														
Barnet Loop -> Hendon Park - security concerns, safety in dark hours, prefer roadside cycling														
Hale Lane (A5100) btw Hale Dr. and Maxwelton Av. is 20mph
